

Askari Miniatures

German Sentry Box

Instructions:

On the next page there are enough copies of the pattern to make 6 sentry boxes.

1. Print that page on white card stock.
2. Make the interior box using the guide on the right. Use foamcore, cardstock, balsa or whatever.
3. Glue and trim the pattern to your box. Note the direction of the pattern forms "arrows."
4. Add a black roof.
